

## **The innovation GoConex delivers**

- Electrical switching without wire.

## **What sets GoConex apart from others?**

- Assign one switch or many switches to control one load or many loads.
- Change switch and load assignments as you choose.
- Looks the same as all Decora style wired switches.
- Fits behind all Decora style switch plates.
- Wired "master switches" are eliminated.
- Switch electricity up to a range of 600 feet.
- Competes with traditional switching methods.

## **What benefits does GoConex deliver?**

- Add a switch without wire.
- Move a switch without wire
- Change what a switch controls without wire.
- Add up to 10 switches to control an electric load – no wire.
- Put a switch anywhere. On a wall, bench, nightstand, out door gate.
- Carry a switch in your car, truck, boat, pocket or purse.
- Add a switch to existing electrical installations.
- Wire, boxes, connectors and labor eliminated.
- Never cut drywall for switches again.
- Keep vapor barrier integrity.
- No electrical knowledge required
